

Gabriel Sequera

Baseball Research & Development | Scouting | Baseball Operations

📍 Clifton, New Jersey ✉ gabriel.sequera@gmail.com 🌐 gabriel-sequera 📺 PanalyticsBaseball

Professional Summary

Bilingual baseball operations and analytics professional with experience in affiliated and independent professional baseball environments. Uses R, Python, SQL, Statcast data, and sports-technology training to clean data, evaluate player performance, build interactive tools, and translate findings into player-development recommendations. Brings additional playing and coaching perspective as a former collegiate catcher.

Professional Experience

Panalytics Baseball, Founder and Independent Baseball Analytics Researcher Founded an independent baseball analytics portfolio and began publishing player research projects in 2026 using public Statcast and Baseball-Reference data. • Built reproducible R workflows and decision-focused visualizations covering pitcher mechanics, pitch movement and sequencing, hitter approach, contact quality, and performance sustainability. • Developed the Marlins Decision Lab in Shiny with reactive filters, team-relative percentiles, player comparisons, sortable tables, Plotly tooltips, and downloadable outputs. • Published player-development case studies that connect statistical evidence with clear scouting observations, limitations, and recommendations.	Remote July 2024 – present
New York Yankees, Somerset Patriots (Double-A Affiliate), Supervisor, Concessions and Guest Experience Supported concessions and guest-experience operations for all scheduled Somerset Patriots home games. • Supervised a game-day team of approximately 16 employees and ensured the assigned stand was stocked, prepared, and operational before gates opened. • Monitored inventory, customer service, and basic food-safety practices while resolving issues during games. • Coordinated with colleagues during fan-entertainment activities and 50/50 raffles.	Bridgewater, New Jersey Apr 2023 – Sept 2025
Saint Peter’s University Facilities, Operations, & Recreational Life, Assistant Director, Facilities, Operations & Recreational Life Supported game-day and technical operations for women’s volleyball, men’s and women’s basketball, and men’s and women’s soccer. • Used basic R analysis to organize opponent information and support pregame preparation. • Edited game video, operated replay workflows for plays requiring review, and distributed live feeds and still images to television broadcast partners. • Coordinated event information and technical workflows with athletics staff, officials, and broadcasters.	Jersey City, New Jersey Sept 2022 – May 2024
New Jersey Jackals, Baseball Operations Intern Supported game-day setup, presentation, customer service, and closing operations for an independent professional baseball club. • Set up video and game-replay equipment before games. • Installed team banners, sponsor signage, and promotional materials throughout the ballpark. • Operated a concession stand and supported postgame closing by helping ensure spectators exited the stadium safely.	Woodland Park, New Jersey June 2019 – Sept 2019

Education

Bachelor of Arts - Saint Peter's University, American Studies & Sports Management	Jersey City, New Jersey Sept 2022 – May 2024
Associate Degree - Bergen Community College, Sports Management	Paramus, New Jersey Sept 2018 – May 2020

Certifications

Sports Coding & Data Integration	2024
Certified Hitting Coach	2024
Baseball GM & Scouting Certification	2021

Baseball Experience

Bergen Community College , JUCO Baseball Catcher	Paramus, New Jersey 2019 – 2020
GBA Baseball Academy , Strength and Conditioning Coach	Caracas, Venezuela 2014 – 2016

Technical Skills

Analytics & Programming: R, Python, SQL, dplyr, tidyr, ggplot2, Shiny, Plotly, DT

Baseball Data: Baseball Savant, Statcast, Baseball-Reference

Baseball Technologies: Blast Motion certified; TrackMan training through Athletic Lab; Rapsodo online coursework

Operations & Media: Game-day supervision, inventory, customer service, video editing, replay and broadcast support

Languages: English (fluent), Spanish (native)

Relevant Projects

Marlins Decision Lab

Interactive R Shiny application for team-relative player evaluation, comparison, visualization, and report-ready data exports.

- R
- Shiny
- Plotly
- DT

Bubba Chandler Pitching Research

Pitcher-development case study connecting arm-slot changes and mechanical systems with breaking-ball shape, swing decisions, weak contact, and strikeout outcomes.

- R
- Statcast
- Pitch Design
- Data Visualization

Miguel Vargas Hitting Research

Hitter-development case study evaluating approach, bat speed, contact quality, performance change, and the sustainability of offensive improvement.

- R
- Statcast
- Player Development
